See Bushboard Colour Selector

Our original healthcare boxed out unit features large access panels and has aluminium corner extrusions providing extra protection. The unit can be quickly and simply fitted to the wall using brackets and secured with tie back rods. Panels are available hinged and lockable and allow wide access points to services behind.

Bushboard healthcare boxed out units are available fully pre-plumbed and tested, making them quick and easy to install and totally compliant with HBN 00-10 Part C. Bushboard healthcare units meet stringent healthcare regulatory demands for an 'Impervious, smooth and seamless' finish.
