Colours

Our new-style healthcare boxed out unit is constructed from one piece of Solid Grade Laminate. It is a totally seamless design which incorporates two hinged, lockable access hatches with integral hygiene seal. The unit uses toggles to click simply into provided wall channels, it also uses tie back rods for added strength.

Bushboard healthcare boxed out units are available fully pre-plumbed and tested, making them quick and easy to install and totally compliant with HBN 00-10 Part C. Bushboard healthcare units meet stringent healthcare regulatory demands for an 'Impervious, smooth and seamless' finish.
